

## Parish AGM

### Sunday 18th September

Next Sunday after Mass is our Parish's Annual General Meeting.

A purpose of an AGM is to review what has happened in the past year and to help plan for the upcoming year.

Large numbers of parishioners of faith and goodwill have contributed to the life of our Parish community over many years. In order to build on previous dedication and generous efforts, we want to plan and need your help to contribute and give us suggestions that will help with our continued growth as an effective and functioning Parish into the future.

Pastoral Planning is an important element of our looking forward. To help the PPC plan, your contribution and sharing of experience is essential.

**On this page, you will see the outline of two leaves.** For our Pastoral Planning, I would like you to pray and think about one aspect of our Parish you appreciate (a positive aspect of our Parish that you would like to see be continued, i.e Morning tea after mass). On the second leaf after prayer and reflection, I would like you to write down one thing you think needs to be changed, modified or further developed in our Parish (an aspect that needs to be changed or modified and, if possible, if you have a solution or modification to suggest, i.e *people parking close to the flower boxes which make seeing the children or people walking out from behind the car dangerous* - a suggestion *put up no parking signs*, for example).

These leaves will be used during the AGM and the information gathered will help with the Pastoral Planning of the Parish. Thank you.

*Michelle*
